

## GETAWAY

## PENO LOOP

**30 september**

1 day / 22 km

REQUIRED LEVEL

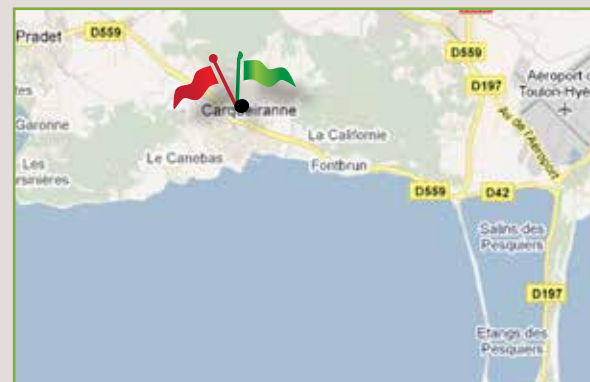

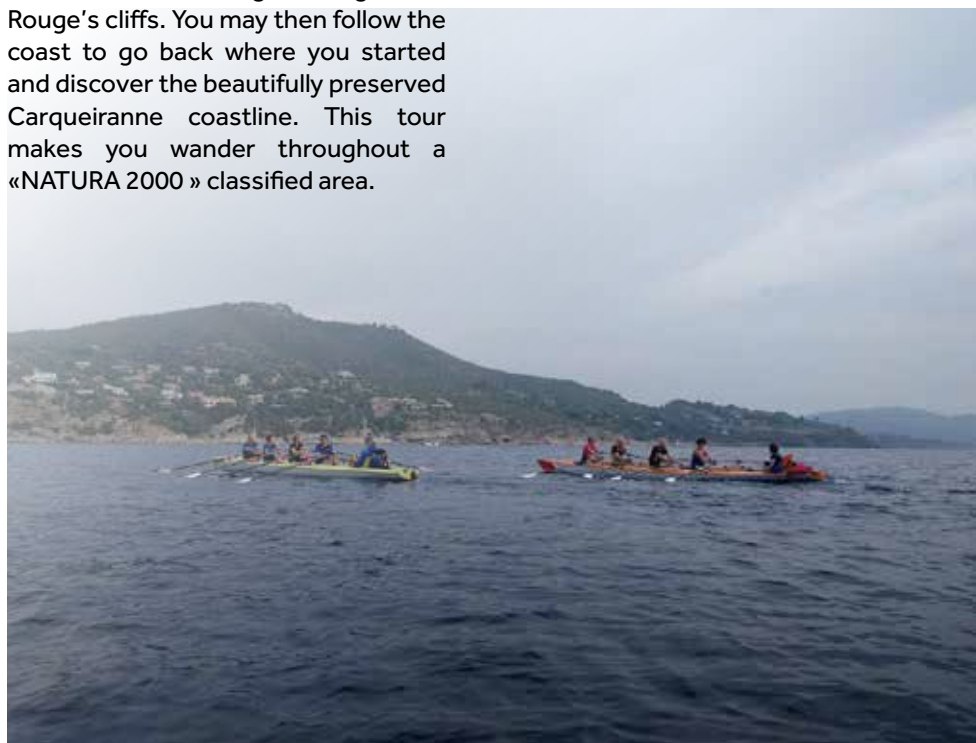

## ROUTE

The tour will first lead you eastward to Almanare beach, famous spot for kitesurf and windsurf competitions. On Giens' peninsula you may admire a rare geographical phenomenon called double tombolo, then follow the peninsula up to Ile Longue and the Fourmigués' wild islets. Afterwards you will leave them at starboard and for a 5 kilometers' long crossing to Bau Rouge's cliffs. You may then follow the coast to go back where you started and discover the beautifully preserved Carqueiranne coastline. This tour makes you wander throughout a «NATURA 2000» classified area.

## SIGHTSEEING

Conviviality, good mood and smiles are of the essence. The landscapes you will cross are very different but all are in deep contact with nature so as to respect a well preserved coastline with its numerous conservation areas. Carqueiranne, where life is sweet, is also famous as the capital of cut flowers.
