# “REIMS-CHAMPAGNE” TOUR

This tour between city and countryside will allow you to discover Reims and its surroundings, including an inside look at the world of champagne the day after, with a tasting session of the famous sparkling beverage. A round trip on the canal connecting the Aisne and Marne rivers, along the «greenway» of the city of Reims. During this tour, you will see the main landmarks of the coronation city: the Saint Rémi basilica overlooking the canal, then the cathedral with its two Gothic towers and the big futuristic cruise liner of the Congress Center. The accompanying persons will be able to follow the tour on a bike or enjoy discovering Reims, a UNESCO world heritage site in the morning.
