1 DAY / 28 KM

ROWING LEVEL

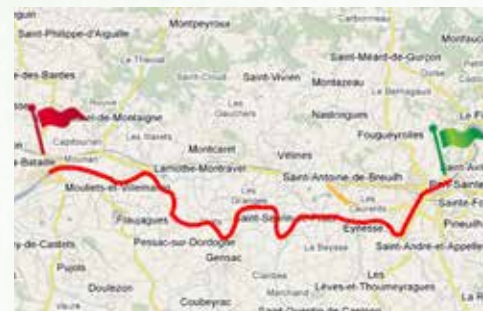

ROUTE

You will be rowing on the Dordogne river between Port-Sainte-Foy and Castillon-la-bataille for a 28 kilometers long tour among villages and local vineyards. Rowers can fully enjoy the river since there is no navigation except for a few fisher boats. The river is wide, calm and slightly winding, hence allowing a gradual discovery of the different perspectives along the way.

SIGHTSEEING

Of course it's all about navigating on « la river Espérance ». The one where the Gabares* used to transport wood from Auvergne and Corrèze aimed for Bordeaux' s cooorage. The famous Dordogne River which the Celts use to formerly name « Du Unna », that is to say « rapid water » ! However you will embark on a peaceful winding tour between the AO C of Sainte- Foy and Côtes de Castillon. From the river you may admire the gorgeous castles with their orderly vineyards and many beautiful 18th century houses with made of sandcolored limestone bricks. Last but not least, you may then travel back to the medieval ages by visiting Saint-Emilion, Sainte-Foy-la-Grande or Castillon-la-Bataille !
