

## GROIX ISLAND TOUR

This tour will take you on a discovery of the welcoming and beautiful Groix island. The tuna on the church's bell tower sets the tone. You will start from Kerguelen and head towards the island western end and Pen Men lighthouse, thus entering the splendid "Wild Coast" with its moors and cliffs. Afterwards you will navigate along the wild and majestic southern coast and come across the famous deep rift called "Hell Hole" before reaching Locmaria. This charming village nestled around a tiny bay provides a maze of alleys, wash houses and fountains. You will pass by the gorgeous rocky plateau called the "pointe des Chats" and the lighthouse of the same name. You will then row along the numerous little beaches on the east coast before reaching the wide one called "Grands Sables" which is one of the rare European convex beaches, before reaching Port Tudy. On the next day you will head towards the rocky plateau of the Errants standing in the middle of the harbour before reaching Kerguelen.
