

EMBRUN SERRE-PONÇON TOUR

 **JUNE 27 & 28**
2 DAYS / 30 KM

 **ROWING LEVEL**

ROUTE

The Serre-ponçon lake is the greatest artificial lake in Europe and stretches from Embrun to Ubaye, at the bottom of the Ecrins National Park, in a great landscape of snowy peaks. The early start guaranties you exceptional rowing conditions in a peaceful mountainous landscape. You will pass at the feet of the mountains Guillaume, Morgon and Aiguilles de Chabrières. You will go around Saint-Michel chapel before going back.

SIGHTSEEING

We advise nature lovers to wander in the Ecrins national park. If you're looking for adrenalin you can practice treeclimbing, kite surfing and numerous other sports nearby. Those who wish can also visit Mont-Dauphin fort which is as a UNESCO world heritage site, or else Boscodon abbey or go to the brand-new harbor's master office in Savines le Lac. If you choose to arrive the day before or even on Friday, we can take you to the discovery of the Embrun lake (1000m length) and to take a specific training supervised by an independent teacher on competition boats. You may also choose to spend the afternoon in a kayak, riding an electric bike or else hiking up Mont Guillaume (2542m) to enjoy a stunning view of playground, in a festive and casual atmosphere !
