ROUTE

You will enjoy a beautiful boat tour very close from Paris, along the peaceful banks of the Marne river, in the historical heart of rowing and canoeing. This tour is organized by Aviron Marne and Joinville which was created in 1876.

The Marne river will offer you beautiful campaign landscapes as you leave the urban web. You will discover its secrets, meanders, its flora and preserved nature sprinkled with nearly wild islands. The longest river in France (514 km) also benefits from a great fauna, so you may meet many species such as swans, cormorants, herons and kingfishers all along the way.

You will start from Fanac island, near Joinville bridge, then row upriver until Champs sur-Marne castle where you will enjoy the climax of the tour : a visit of the castle before a lunch in its park.

You will then go back to your boats and row downriver until Fanac island boathouse, where the tour will end with drinks and a diner for those who wish to stay.
